## Jean Monnet Activities in Slovakia

The Jean Monnet Action was launched in 1989 by the European Commission to support academic research in European integration. The programme originally addressed academics in the Member States, but came to include those in accession countries soon after. Today, it has a global scope.

Between 1989 and 2018 more than 1000 universities in 87 countries throughout the world participated in the Jean Monnet actions, offering Jean Monnet courses as part of their curricula. So far around 5200 Jean Monnet projects in the field of European integration studies have been set up.

The Jean Monnet activities aim at **promoting excellence in teaching and research in the field of European Union studies worldwide**. These actions **foster the dialogue between the academic world and policy-makers**, in particular with the aim of enhancing governance of EU policies. European Union studies comprise the study of Europe in its entirety with particular emphasis on the **European integration process** in both its internal and external aspects. The discipline also covers the role of the European Union in a globalised world and in **promoting an active European citizenship and dialogue between people and cultures**.

The objective of the Jean Monnet activities is to **bring positive and long-lasting effects to the participants** involved, to the promoting organisations, as well as to the **policy systems** within which they are framed. The activities aim to a) **enhance employability and improve career prospects for young graduates**, by including or **reinforcing a European dimension in their studies**; b) lead to a **more active citizenship** by increasing the interest in understanding and participating in the European Union; c) bring **support for young researchers and professors, who want to carry out research and teaching on EU subjects** and d) **increase opportunities for academic staff** in terms of professional and career development.

**Between 2007 and 2018, a total of 29 Jean Monnet Activities were selected in Slovakia.**

### Jean Monnet Activities within the Lifelong Learning Programme 2007 – 2013

The Jean Monnet Programme was integrated within the European Commission's Lifelong Learning Programme in 2007. The period 2007-2013 extended its activities to include support for associations of professors and researchers specialising in European integration, for Information and Research Activities and for the programme's first multilateral action type, the Jean Monnet Multilateral Research Groups. Over this period, the Jean Monnet Programme became increasingly multi-disciplinary and at the request of the European Parliament opens its doors to civil society and to primary and secondary school teachers and vocational education and training via the initiative "Learning EU at School".

## **1. Teaching and research in the field of European Union Studies**

A **Jean Monnet Module** is a short teaching programme in the field of European Union Studies at a higher education institute. Each Module has a minimum duration of 40 teaching hours per academic year. Modules may concentrate on one particular discipline in European studies or be multidisciplinary in approach.

A **Jean Monnet Chair** is a teaching post with a specialisation in European Union Studies for university professors or senior lecturers. The position is held by only one professor, who must provide the minimum of 90 teaching hours per academic year.

"**Ad personam**" **Jean Monnet Chairs** constitute awards reserved for Jean Monnet Chairs who deliver evidence of a high level international and publication records and/or professors with a distinguished back ground as former high level practitioner in the field of European studies.

A **Centre of Excellence** is a focal point of competence and knowledge on European Union subjects. The academic responsibility of a Centre must be assumed by a Jean Monnet Chair holder. A Jean Monnet Centre of Excellence gathers the expertise and competences of high-level experts and aims at developing synergies between the various disciplines and resources in European studies, as well as at creating joint transnational activities and structural links with academic institutions in other countries. It also ensures openness to civil society.

## **2. Academic and Research activities in the field of European Union Studies**

**Information and Research Activities** supported between 2008 - 2013 focused on the organisation of conferences, seminars and roundtables related to the European Integration topics.

**Learning EU at School** supported between 2011 - 2013 promoted democratic citizenship in primary and secondary schools of the Member States.

**Multilateral Research Groups** supported between 2008 - 2013 promoted research partnerships leading up to the creation of an integrated academic network with a joint research plan and multi-disciplinary synergies in the field of EU studies

The support was given to interdisciplinary **Associations of professors and researchers** to contribute to the study of the European integration process and who were representatives of the academic community in European integration studies in their country or region.
